

Drop Lift Wall Rack

Item	Description	Qty
1	Wall bracket	2
2	M3x5 screw	2
3	Knob assembly	2
4	#10x1" screw	8
5	Washer	2

- 1) Fasten wall bracket (1) to wall using four screws (4) into wall studs if possible. If unable to locate wall studs we recommend using hollow wall screw anchors.
- 2) Spacing of rack sections should be equal to the length of the clamps being used plus approximately 1/2".
- 3) Attach knob assembly (3) to wall brackets (1) using screw (2) and washer (5) to keep clamps from sliding off bracket.
